- None reported.

Service Interruptions:

- None reported.

WEATHER OF CONCERN

Weather of Concern

Northern California:

- Lingering moisture may cause some patchy valley fog Sunday morning.
- Attention then focuses on stronger, wetter storm that moves across the area Monday into Tuesday.
- Moderate to heavy precipitation across the area.
- Snow levels will start out high, but drop below pass levels Monday PM - Tuesday with enough snow to cause travel delays and chain controls.
- Breezy southerly winds will also accompany the system.

Southern California:

- The first significant storm system is expected to move into Southern California by Monday afternoon.
- Due to the recent fires including the Thomas, Creek and La Tuna Burn Areas, there is a heightened danger for debris flows to occur. Especially with as much as 2 to 4 inches of rain expected with high hourly rainfall rates.

Active Weather Warnings, Watches and Advisories by County:

WEATHER SYNOPSIS BY REGION

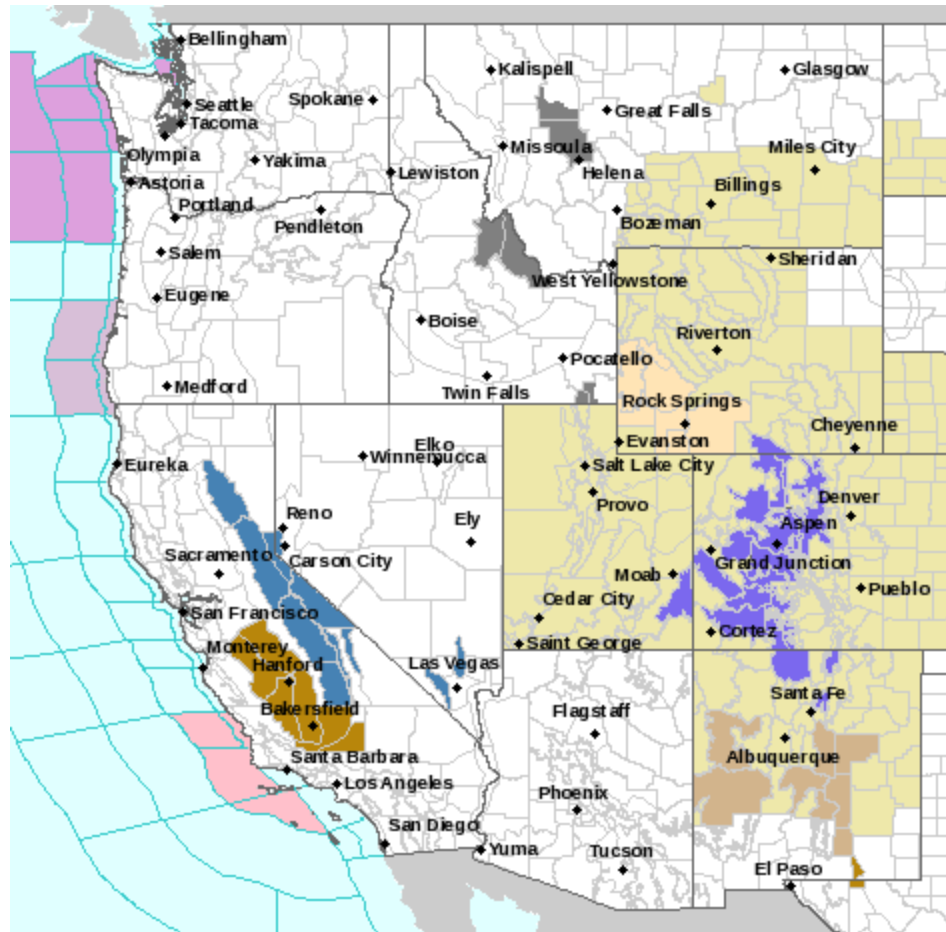

NORTHERN CALIFORNIA

High pressure has reclaimed Northwest California for the time-being, and as a result showers have diminished across the region. Some lingering instability continues to generate shallow convection across the waters, but this activity has ceased on land as of early this afternoon. Overnight tonight, increasingly dry air aloft will result in clearing skies, which will in turn allow for more efficient cooling along valley floors. As a result, temperatures in interior valleys are likely to be quite cool, with valley fog and stratus likely to develop after midnight as well. In addition, some patchy marine stratus and fog may develop overnight in the coastal lowlands as well. On Sunday, dry conditions will persist, with generally cool afternoon temperatures. High level cloud cover will steadily increase through the day, which may help to slow the erosion of valley fog in interior valleys. Should this occur, these areas will likely remain very cool through the day. Meanwhile, marine stratus will likely dissipate somewhat through the afternoon, but there are indications that it will likely not disappear completely, resulting in a somewhat gloomy day in some places.

SOUTHERN CALIFORNIA

Isolated showers across parts of southwest California will diminish through tonight. Otherwise, dry and mild weather is expected through Sunday night. A strong storm system will bring significant rain, mountain snow, gusty winds and a slight chance of thunderstorms to the area Monday into Tuesday. Gusty northerly winds are likely behind the system by Wednesday with a diminishing shower threat. High pressure will bring dry weather with offshore flow and a warming trend to the region late next week.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-44395**, on 01/05/18 at 1410 hours, the Air Force Rescue Coordination Center (AFRCC) received an unregistered Emergency Locator Transmitter (ELT) hit around the area of the Sacramento Mather Airfield. The signal could not be traced to a specific area or plane. Civil Air Patrol was notified and requested to locate the device. **Update:** the plane was located at the airport and they are currently working on deactivating the device. **Mission Closed**
- **2018-LAW-443911**, on 01/04/18, at 1945 hours, San Joaquin County Sheriff's Office requested a K-9 Cadaver team to assist Stockton PD with a Search Warrant in the City. Stockton PD requested the assistance of the team from Santa Clara County. The State K-9 coordinator was notified and ensured the team was available. The request was for 1/5/2018 at 0700 hours. **Mission Ongoing.**

Cal OES MISSION TASKING

Cal OES Missions

- **2017-Cal OES-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene).
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County.
- **2017-SOC-44022:** Two E-BAM (air monitors) from Air Resources Board/Office of Emergency Response to monitor smoke from the Thomas Fires. Location one: Olga Reed Elementary School (480 Centennial St., Los Alamos); Location two: Carpinteria City Hall (5775 Carpinteria Ave., Carpinteria) (On Scene).
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene).

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
